

Black History Brain Quest

Brain Quest

Just For Fun Rating (0-5): □□□

Age Range: 9-12 years

Diversity Themes: Race/Ethnicity

Potential Questions/Comments/Activities/Games:

1. Did you know all of this information about Black History? Did you learn any of it in school?
2. What else do you think you should learn in school from this Brain Quest?
3. Have your child pick a fact or series of facts to share with his/her class.
4. Have your child memorize a series of questions and then ask them rapid fire. Have your child do the same with you (or another child). Give a small prize to the child who answers the most questions correct.

5. _____
6. _____
7. _____
8. _____

Continuing the Conversation

This is the only Brain Quest deck that is dedicated to minority accomplishments. Talk to your child about why Black History was chosen. Should there be other decks? Brainstorm potential others. Contact Brain Quest and ask them to create some of the decks you came up with. Go through the other Brain Quest decks and see if much of the information in Black History is included in the other decks. Why or why not? Should it be? Do you think that everyone will learn the Black History if it is only in its own deck or should it be infused throughout the other ones? How can you and your child help share some of the information that you learned? Brainstorm ways to share with others (family members, classmates, friends, etc). Be creative!
